Dear friend,

Thank you for your letter and tape.  
I've been glad to learn that the sentence  
was rather lighter than what could be  
feared of, but deeply sorry for the accident  
met by your comrade.

On the other hand, I find it wonderful  
how easy you take the prospect of four  
further years of jail. Bravo! Hold on!  
I hope the other comrades are in the same  
mood.

More and more do I understand the way  
you came round to considering the illegal  
action as a *sine qua non* condition of a

consistent abiding by the noble ends  
laid down by the legal one.

I hope the Institute of International  
Development Studies will accept your  
application and so allow you to  
turn your confinement to the best account.

Cheer up!

A. Emmanuel

P.S. If you come across some noteworthy  
press cutting but in Danish, send it  
to me all the same. I can get translation  
here by some Danish student.
